

Profinder B2C

The most comprehensive consumer data in Finland

**Focus on sales and marketing -
not on searching for consumers' contact data**

Build, target, and save consumer audiences. At the core of our service are Finland's highest-quality consumer data sources and registers.

Our database includes all active phone numbers in Finland while ensuring responsible data use. Direct marketing opt-outs, unlisted numbers, and minors are automatically excluded.

Reach the right audience:

Comprehensive consumer data and an easy-to-use interface

Residential area profile

Building type

Housing tenure

Age forecast

Subscription type
