

Vehicle data

TRAFICOM

Understand your customers better

Do you need information on vehicles?

Do you offer products or services to vehicle owners?

If vehicles and related services are at the core of your business, up-to-date data of vehicles is essential to identify and target the right audience.

Target your message right - Profinder's vehicle data offers e.g.

Vehicle class

Number of vehicles

Fuel type

Buying behaviour

Integrate vehicle data with Profinder's extensive B2B data

In addition to vehicle-related data, our database allows you to refine your target audience based on company location, financial information, industry, and many other criteria. You can quickly and easily access the contact details of the right decision-maker.

Get vehicle data quickly and effortlessly

We handle the Traficom data permit application on your behalf. Thanks to our efficient process, you can obtain the permit quickly and have it available for use in as little as one week.
